

NEW loop for

# 10 Hillcrest

In March, a route change was introduced on the 10 Hillcrest service to improve its reliability for passengers.

However, we've had feedback from some residents who want to shop at the nearby supermarket and attend the Hillcrest medical centre.

We've listened to this feedback.

**From Monday 21 July, the bus will travel a loop twice a day, Monday to Friday.**

This will provide residents with two hours in which to do shopping at New World, visit the post office and attend medical appointments.

This is an interim solution until the review of the regional public transport plan has been finalised in 2015.

Times overleaf.
