- 32 Tokoroa Connector
- 33 Taupō Connector

How to use a bike rack

Please remember loading and unloading your bike is your responsibility.

Always load and unload your bike from the front of the bus, from the footpath.

Loading your bike

- 1 Squeeze**
Squeeze bike rack handle up to release
- 2 Lower**
Lower rack until horizontal
- 3 Load**
Lift bike onto rack with front wheel facing toward yellow support arm, fit wheels into clearly labelled slots
- 4 Secure**
Raise support arm over front tyre so the hook rests on top of the front wheel

Unloading your bike

- 1 Release (Reverse of 4)**
Unhook the lower support arm from front tyre and lift your bike from the rack
- 2 Unload and raise (Reverse of 1)**
If no-one else is using the rack, squeeze handle and fold bike rack back up

BUSIT

- There is no charge for using the bike racks.
- There are two bike spaces available on each bus and spaces are first in, first served.
- Each bike must weigh under 25kg.
- Only bikes with 16" diameter, or larger, wheels are able to use the racks. Specifically, wheel sizes may only be between 16"/40.6cm and 29"/73cm/700c and up to 3"/7.62cm width. Bikes must have a maximum wheelbase dimension of 44"/111cm.
- Loading and unloading the bike is the responsibility of the passenger. Before loading your bike, please remove any loose items, such as drink bottles and helmets. Always load and unload your bike from the kerbside.
- Bikes are insured up to \$1,500 when on the bike rack.
- Electric bikes that meet all of the above minimum and maximum dimensions and with sealed gel, lithium Ion, or NiCad batteries are permitted.
- Electric bikes with liquid lead acid batteries are not permitted.
- Petrol and other similarly powered bikes are not permitted.
- If you experience any problems while using the bike rack, please notify the driver immediately.

We always aim to operate buses with bike racks, however there may be times when this is not possible due to operational reasons e.g. bus breakdowns.
